Shakil Ahmed Billal

Flutter Developer **Dhaka, Bangladesh** **+88-01308048478**

shakil.dev99@gmail.com /in/shakil-ahmed-billal github.com/shakil-ahmed-billal xhakil.site

Summary

Passionate Flutter Developer with strong expertise in building high-performance, cross-platform mobile applications for Android and iOS using Flutter and Dart. Skilled in translating Figma designs into pixel-perfect, responsive UI, integrating REST APIs and Firebase services, and writing clean, maintainable, and scalable code. Experienced in state management (Provider, Riverpod, Bloc), native platform channels, and CI/CD deployment pipelines. Adept at solving complex problems and delivering seamless mobile experiences in fast-paced environments.

Skills

Mobile App Development: Flutter, Dart, Android (Kotlin/Java Basics), iOS, Cross-Platform App Development
State Management: Provider, Riverpod, Bloc/Cubit, GetX, setState, Redux, Zustand, Context API
Web Frontend Development: React, Next.js, Vue.js (Basic), JavaScript (ES6+), TypeScript, HTML5, CSS3
UI & Styling: Material Design, Cupertino Widgets, Responsive UI, Custom Animations, Figma to Flutter UI, Pixel-Perfect UI Implementation, Tailwind CSS, SASS/SCSS, Shadcn UI
Real-time Communication: WebRTC, Jitsi, Live Messaging, Video/Audio Calls, Socket.io
Maps, Location & Hardware: Google Maps, Mapping, GPS Tracking, Location Features, Bluetooth Integrations
Backend & APIs: REST APIs, GraphQL, Firebase, Node.js, Express.js, Mongoose, Prisma ORM
Databases: SQLite, Hive, MongoDB, PostgreSQL, MySQL, Redis
Authentication & Security: JWT, OAuth, Firebase Authentication, BetterAuth, Helmet.js, CORS
Quality & Delivery: Unit Testing, CI/CD, Firebase, Git, Agile Development, App Store, Google Play
DevOps & Tools: Git, GitHub, GitHub Actions, CI/CD, Docker, Play Store & App Store Deployment, Webpack, Babel, Figma, Vercel
CMS Platforms: WordPress, Wix, Webflow, Shopify, Squarespace
Soft Skills: Problem Solving, Communication, Team Collaboration, Leadership, Adaptability

Experience

Softvence Agency **Jan 2026 – Aug 2026**
Team Leader *Dhaka, Bangladesh*

- Overseeing a cross-functional mobile app development team, planning sprints, assigning tasks, and managing project timelines to ensure consistent, on-schedule delivery of Flutter-based products.
- Mentoring Flutter developers on Dart best practices, state management patterns, clean architecture, and efficient widget composition to elevate overall code quality.
- Coordinating closely between business stakeholders, designers, and the technical team to translate product requirements into clear, actionable development tasks and smooth feature delivery.
- Driving key Flutter app architecture decisions, including module structuring, state management strategy, and API integration patterns, while leading thorough code review processes.
- Establishing coding standards, Git workflow guidelines, and CI/CD release practices to improve team productivity and reduce production incidents across app releases.

Softvence Agency **Apr 2025 – Jan 2026**
Flutter Developer *Dhaka, Bangladesh*

- Developed scalable, high-performance, cross-platform mobile applications for Android and iOS using Flutter and Dart, following clean architecture and reusable widget-based design principles.
- Converted complex Figma designs into pixel-perfect, fully responsive Flutter UI, ensuring consistent look and feel across a wide range of device sizes and screen resolutions.
- Integrated RESTful APIs, GraphQL endpoints, and Firebase services such as Authentication, Firestore, and Cloud Messaging to build dynamic, real-time, data-driven mobile applications.
- Improved app performance and user experience through widget tree optimization, lazy loading, efficient state management, image caching, and reduction of unnecessary rebuilds.
- Collaborated closely with backend engineers, UI/UX designers, and product managers in an agile environment to deliver production-ready mobile features on tight deadlines.
- Handled app release management, including versioning, build configuration, and deployment to the Google Play Store and Apple App Store using CI/CD pipelines.

Qwik IT Services **Mar 2024 – Apr 2025**

Flutter Developer *Remote, Canada*

- Built reusable, well-documented Flutter widgets and components following a scalable, modular app architecture that could be shared across multiple screens and features.
- Worked with REST APIs, GraphQL, and Firebase to fetch, cache, and synchronize data for dynamic, data-driven mobile applications used by real end users.
- Ensured cross-platform compatibility, pixel-consistent layouts, and smooth performance across a variety of Android and iOS devices and screen sizes.
- Supported and maintained CI/CD pipelines for automated build, test, and deployment of the mobile application using GitHub Actions, reducing manual release effort.
- Participated in daily stand-ups, sprint planning, and code reviews, gaining hands-on experience with agile development practices in a remote, distributed team setting.

Projects

Demoulinn — Social Media & Video Sharing Mobile App **2026**

- Built and published Demoulinn, a cross-platform Flutter social media app for photo/video sharing, live on the App Store and Google Play. App Store Play Store
- Implemented core social features including a public content feed, likes, comments, reposts, hashtags, and clickable user profiles to help people connect over shared interests.
- Developed real-time one-to-one messaging with Socket.io and Firebase Cloud Messaging, keeping conversations private, instant, and fully synced across devices.
- Integrated secure Firebase Authentication, push notifications for likes/comments/messages, and privacy controls such as post deletion and user blocking.
- Optimized video auto-play, feed refresh, search/discovery, and scrolling performance for a smooth, high-engagement experience across a wide range of Android and iOS devices.
- Tech Stack: Flutter, Dart, Firebase (Auth, FCM, Firestore), Socket.io, Node.js, Express.js, REST APIs.

Certifications

- **MERN Development:** June 2023 - Jan 2024 / Online (Programming Hero): Completed the MERN stack web development course, covering HTML5, CSS3, JavaScript, React, Node.js, Express.js, and MongoDB – foundation used for backend and API integration
- **Flutter App Development:** May 2024 - Oct 2024 / Online (Ostad - ostad.app): Completed a 6-month cross-platform mobile app development course covering Flutter, Dart, state management, and REST API integration for building robust applications.
- **Next Level Development:** Nov 2025 - Jun 2026 / Online (Programming Hero): full-stack development course covering JavaScript, TypeScript, Node.js, Express, Next.js, PostgreSQL, Prisma, MySQL, Golang, Docker/Nginx, AWS, and CI/CD – applied to backend services powering mobile applications.

Education

Diploma in Computer Science Engineering (CSE) **2024**

Gazipur Ideal Polytechnic Institute *Dhaka, Gazipur*

- Completed coursework in Algorithms, Data Structures, Mobile & Web Development, and Operating Systems.
- Participated in hands-on projects related to IoT and mobile application development.
- Achieved a strong understanding of Computer Architecture, System Programming, and Computer Networks.

Extra-curricular Activities

- Collaboration at Programming Hero SCIC (END Game) - January 2025 – Current: Collaborated with a team of 6 members to develop a real-life mobile/web project, demonstrating teamwork, problem-solving, and project execution skills.
